• STUDY ARCHITECTURE IN ISTANBUL

The Department of Architecture is offering an undergraduate and graduate professional elective course in Istanbul, Turkey, this Winter Term. Prerequisites for the course are AET 155 and 156 or graduate standing. The course will focus on the development of the city of Istanbul and its architectural heritage and monuments. The course will take place at Bahcesehir University in Istanbul, taught by Bahcesehir faculty and Hartford faculty, and will be a combination of lectures and site visits around the city. The dates are January 3-14. The cost is $1989, which includes tuition, accommodations for two weeks in a dorm near the University, breakfast and lunch, admissions to all sites and museums, and transportation to and from Istanbul Airport and around the city. Roundtrip airfare from JFK in New York to Istanbul is currently about $650. Space for this course is limited. Please contact Professor Crosbie (crosbie@hartford.edu) as soon as possible for more information on the trip and registering for the course.

• SEMINAR ON ARCHITECTURAL TOPICS

Professor James Fuller is offering two Seminar on Architecture Topics (AET 485) courses this Winter Term. These are 3-credit, professional elective courses. If you are interested please speak to Professor Fuller, or email him at: fuller@hartford.edu.

• STEVE BADANES LECTURE OCTOBER 29

Architect and builder Steve Badanes is the next featured presenter in the architecture lecture series. Badanes is the founder and head of Jersey Devil Design/Build—a group of architects, artists, and inventors based on the model of medieval craftsmen. Their design/build projects and work with students for non-profit clients has gained international attention and is known for its innovative use of materials and energy efficiency. This lecture will explore design and making, climate-responsive building, community outreach education, and courage in architecture. The lecture will take place on Thursday, October 29 in Wilde Auditorium (across from the architecture department) at 6:00 PM. The lecture is open to the public, and all architecture students are strongly encouraged to attend. The lecture series is made possible through the generosity of JCJ Architecture.
