

## SUGGESTED CURRICULUM FOR A B.A. DEGREE IN HISTORY

This is a sample program developed for the thirty-nine credits for the history major and for the general education requirements. It should be used only as a guide in setting up schedules. If the student chooses to concentrate in either European History or in the History of Asia and the Middle East, the program choices for all years after the freshman year will change (please see the comments on the next page and also consult the department for further information). Also, note that two courses designated “writing intensive” by the college’s General Education Committee must be taken before graduation.
